## Spring Conference 2011:

# Inspire to Learn

*Inspiring learning through our passions and texts*

Join us on May 18th as we hear from someone who is no stranger to York Region. Dr. Glenn DiPasquale will address the question "Can You Inspire If You Feel You're About to Expire?" Glenn's keynote highlights some of the current research on stress as he explores some of the more surprising findings. How does this research apply to the life of today's teacher? What does the growing body of research suggest about utilizing a sense of humour as a major coping tool. *Oh ... and there might be some jokes as well!*

**Choose 2 additional breakout sessions from below, featuring a variety of texts that are sure to inspire:**
